***ESCAPE MASK M900***

Comfortable head strap

Silicone mask

Exhale Mask for P version

Honeycomb design to minimize breathing resistance

#### Characteristics and advantages

- Light and compact
- Quick and easy to don
- Easy to carry along in the pockets or at the waist belt
- Big handles for gloved hands

#### Option:

REFURBISHING KIT: M900 after 5 years can be refurbished

The escape respirator **SPASCIANI M 900** is provided with gas filter **ABEK15** (Gases) or **ABEKP15** (gases and particles).

This innovative product yields the memory of the silicone to reduce its bulk to a minimum.

The silicone of the facepiece makes the mask very comfortable and eases the leak tightness on the user's face. All that minimizes donning time.

The **ABEK15** filter gives a low breathing resistance and gives protection from a number of toxic gases for at least 15 minutes. The headband, soft and stable has two anchorage points. The halfmask has a perfect tightness on the face and the honeycomb design of the front of filter grants a low breathing resistance.

**SPASCIANI M 900** is a comfortable product and easy to use and don even with gloved hands. Its minimum size does not interfere with the escape pace.

**M 900** high visibility cases are compact and resistant, a built-in clip allows for portability. Very robust they protect from atmospheric agents and shocks and are provided with a sealing label and a OR gasket that ensures airtightness. The loop for the belt is 50 mm wide thus making it easy to hang the case to it or to the work garments granting great stability.

## QUICK DONNING

---

## Dräger PARAT® 3200

## Spasciani M900

- . Silicone halfmask for excellent comfort
- . Beehive filter design for a lower breathing resistance
- . Hassle free breathing. Avoid closed noise
- . Speak freely without danger of leakage
- . Balanced weight thanks to the headstraps
