

# WhaleSpray

## Technical Data sheet

### WS 1306 S 17

Family: 1  
Product code: 1306S17

Creation data: 02/11/2010  
Review Data: 18/01/2011  
Page: 1 de 1

#### Description

EP fluid high viscous and adherent for equipment at air lubrication, principally exposed to hot and cold water action.

#### Advantages

Next advantages are offered:

- It doesn't drops. High adherence.
- Soundproofing
- High non corrosive protection
- High waterproofing power cause contains special additives 'WD'
- Excellent lubricant power
- Contains special EP additives, avoiding friction and lengthening equipment life.
- Due to his high technology components, WS 1306S lengthens greasing periods.

#### Aplication

Transmission chains, public Work equipment chains, transport chains, agriculture chains, port chains, etc.

#### Aplication way

WS 1306 S it's specially designed for heavy chains exposed to water aggression lubrication. Greasing by brush, manual pump, crankcase or coating.

#### Technical Data

Viscosity at 40°C; sCt	ASTM D-445	4500-5100
Flammable point, °C. min	ASTM D-92	250
Freezer Point, °C. máx.	ASTM D-97	-6
Service temperature, °C	-----	-2 a 1210
