

POWER HAND[®]

LIGHTING FOR PROFESSIONALS

SIN-100.2080

UVC STERILIZER

2 cm / 2 sec 99.9%

Auto Stop
 ≤ 3 cm

No Radiation

Ozone Free

SIN-100.2080

UVC STERILIZER

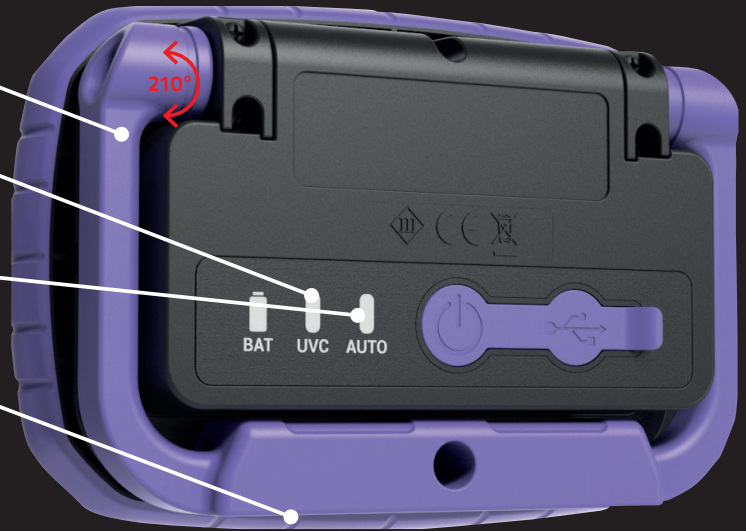

**Broad 120°
light spread**

Rotatable
bracket

Hand-held mode indicator

Static mode indicator

Magnetic base  40 N

**UVC LEDs wavelength:
270-280 NM**

- 2cm, 2 sec - 99,94 % of microorganisms such as bacteria, viruses and protozoa
- 2cm, 5sec - 99,99 % of microorganisms such as bacteria, viruses and protozoa
- 2cm, 10sec - 99,99 % of microorganisms such as bacteria, viruses and protozoa
- 30cm - 30sec 97,90 % of microorganisms such as bacteria, viruses and protozoa
- 30cm - 60sec 99,98 % of microorganisms such as bacteria, viruses and protozoa

Kills 99.9% of microorganism

2 Operation modes:

1. Static mode

Operation stops when sensor detects motion

- Detection angle 100°
- Detection distance 2 m
- Auto off after 15 min.

2. Hand-held mode

Operation stops when distance is more than 3 ~ 10 cm

Safe

- Time-delay lighting design
- No harm on body-radiant illuminance $<25 \mu\text{w}/\text{cm}^2$
- Turn off automatically in 15 minutes-avoid bodily harm for long exposure

Fast

- Render pathogens harmless in 10 seconds
- No warm up

Warning

- Please DO NOT use for valuable Calligraphy, Painting, Leather & Collectibles

Effective

- Kills 99.9% of microorganisms, such as bacteria, viruses and protozoa

No drug resistance

- Make cells die directly and/or cannot reproduce

Environmentally friendly

- Chemical-free
- No secondary pollution

Long live

- Up to 20,000 hours.

Waterproof

- IP68
- Oil/corrosion/impact resistant housing

Included safety Glasses:

- UV Protection
- Lens material Polycarbonate, UV380
- Soft nose pads
