

NEUTRAL TAPE (NETAPE50)

Description:

- Self-adhesive aluminium tape for underlays
- For a complete moisture resistant installation of your underlay

Technical characteristics:

- Dimensions: 50 M x 5 CM (50 r.m.)
- Packing Unit: 1 pack = 96 pieces

Instructions:

- 1) Roll out the underlay with membrane on top. Lay the underlay strips parallel to the laying direction of your floor.
- 2) Make sure the strips of underlay do not overlap; they must be laid perfectly adjacent to each other.
- 3) Seal the joints between the underlay with the damp-proof tape.
