Technical Data Sheet

WS INFINITY OIL

Range: Infinity
Product code: INOIS00

Creation date: 02/08/2018
Review date:
Page: 1 de 1

DESCRIPTION

100% synthetic + ceramic oil, lubricates from -20°C to 280°C, this product covers 95% of the industrial applications thanks to its balanced formula.

WS INFINITY OIL is a high viscosity lubricating oil for all types of industrial applications. It offers excellent stability at low and high temperatures and guarantees a very good protection against wear and corrosion.

WS INFINITY OIL penetrates and lubricates in small spaces and bolts, offers a long and durable film to prevent wear and good corrosion protection.

CHARACTERISTICS AND ADVANTAGES

- Extreme stability to temperature.
- Contains ceramic additive and antifriction additive.
- Excellent protection against wear. Good properties at high loads.
- Low evaporation at high temperatures.
- Appropriate stability to oxidation. Protects against corrosion and friction.
- Good sliding characteristics, penetrates between the spaces of the chains.
- Penetrates inside the links and offers excellent wear protection.
- Exceptional lubrication and separating effect.
- Reduce the coefficient of friction to the minimum.
- High viscosity index, stable to temperature changes.

APPLICATION

- All kind of chains
- Open gears
- Guides.
- Hinges
- Forklift chains.
- Motorcycles
- Karts
- All types of mechanisms that require oil.

TECHNICAL DATA AND CERTIFICATIONS

Oil base		Synthetic oil
Color		Brown
Density	DIN51757	0.95 g/cm ³
Temperature range		-20 a 280 °C
