

DESCRIPTION

The PSP Winter Dry Grip Pro 18-800 is a double lined winter glove covered with a ¾ coated PVC foam coating. The outer liner is a 13G nylon liner and "water-repellent" treated, this ensures the glove to stay dry. The inner liner is a 7G acrylic liner and keeps the hands nice and warm. This liner also has an anti-bacterial treatment, it keeps unpleasant smells away and bacteria cannot spread further.

The ¾ coating together with the water repellent finish, ensures you dry warm hands in cold wet conditions. The glove also remains breathable because of the open back on the top. The PVC Microporous foam coating has a slightly roughened surface and therefore has very good grip in wet conditions.

The glove has also been cold tested and certified according to EN511 and has the EN388 result 3242X. The glove has excellent EN388 results and is wonderfully warm and comfortable. This glove is known for its excellent grip. No irritation due to no seams coming in contact with the skin. Is very suitable for the more demanding user.

This article (PSP Winter Dry Grip Pro 18-800) has been tested and is certified according to the European Regulation (EU) 2016/425 and the EN standards EN420 / EN388: 2016 / EN511.

CHARACTERISTICS

- ▲ Double liner
- ▲ Acrylic Fleece Inner liner
- ▲ ¾ coating with PVC Microporous foam
- ▲ Water-repellent treatment
- ▲ Anti-Bacterial treatment
- ▲ Roughened surface coating
- ▲ Breathable & comfortable
- ▲ Certifications according to: EN420 / EN388:2016 / EN511
