31-pieces

Product Description

- Reliably removes stubborn and baked-on residues such as soot · oil carbon · other deposits from inlet ducts · intake tracts · combustion chambers · EGR systems – without chemicals or mechanical damage
- Gentle cleaning without risk to valve seats · aluminium parts or sensitive sealing surfaces
- Thanks to the powerful extraction system, it is often possible to clean affected components without prior removal
- Walnut shell granulate as a blasting material – a biodegradable, non-abrasive material that does not damage sensitive surfaces
- A filter function/strainer separates coarse deposits from the blasting material
- Blasting material can be reused several times

- Compressed air operation, recommended working pressure 6.3 bar
- With straight and curved lance in solid aluminium spray gun – for accessing hard-to-reach areas
- Extensive range of accessory adapters for almost all intake ducts
- Suction hose length 2.5 m
- Blasting material hose length 2 m
- 220 V power supply · cable length 3 m
- Steel castors
- Capacity for up to 5 litres of blasting material
- Including 5 litres of blasting material
- Extremely powerful suction power of 1600 W
- Practical storage of all accessories on the back of the device
